

Saville TMXD210 Data Projector

Entry level, high performing projectors for business and education

High brightness and lightweight

The TMXD210 combine the features of an advanced DLP™ (Digital Light Processing) chip, a newly developed optical engine and a high-efficiency 180W light source lamp to produce an incredible picture with rich and vibrant colours. Additionally with its compact and lightweight design, this new model is easy to move around, with quick setups for presentations on the go.

Detachable Keypad

The keypad* can be removed from the projector to be used as a remote control. Since the keypad is used to control the projector, detaching it also doubles as a key-lock function preventing others from making adjustments and helps discourage theft.

Filter Free Design

The filter free design reduces the risk of dust and dirt particles entering the projector, helping to reduce any maintenance issues for added peace of mind.

Easy Setup

The Auto Search function displays the connected input sources automatically. Also, +/-20 steps of vertical keystone correction and 1.2x optical zoom gives users a greater flexibility of positioning.

Instant Shutdown

Once your presentation is over, you can simply hit the power button, disconnect the TMXD210 and go off to your next task, the instant shutdown feature makes it quick and safe to power down the projector.

* An extra remote keypad is included with the TMXD210 should the original keypad get lost.

Specification

TMXD210	DLP	2000 lumens	2.7kg	Ultra-portable/installation
Display Technology 0.55" 1 - Chip DMD	Source Lamp 150W (life up to 3000hrs) in Low Mode, 180W (life up to 2000hrs) in Standard Mode	Video Input Terminal RCA x 1		
Resolution 1024 x 768 (Total 786, 432 pixels)	PC Compatibility 640 x 480-1280 x 1024 True : 1024 x 768 Sync on Green available	Communication Terminal RS-232C x 1		
Brightness 2000 Lumens	Video Compatibility NTSC / NTSC 4.43 / PAL (inc PAL - M, N) / SECAM / PAL - 60 Component Video; 480i/p (525i/p), 576i/p (625i/p), 720p (750p), 1080i (1125i 60Hz), 1080i (1125i 50Hz)	Audio Speaker 2W Mono		
Contrast Ratio 2000:1	PC Input Terminals RGB ; mini D-sub 15 Pin x 1 Audio ; Stereo mini jack (ø3.5mm) x 1	Dimensions (W x H x D) 302 x 105 x 221 mm / 11.9 x 4.1 x 8.7 inch		
Picture Size 30" - 250"		Weight 2.7kg / 6.0lbs		
Projection Lens f=22.0 ~24.2 mm, F=2.5-2.7, (3.9-4.4m@100")		Power requirements AC 100 - 240V, 50 / 60Hz		
		Optional Lamp VLT-XD210LP
